PROFESSIONAL SUMMARY

Motivated and detail-oriented undergraduate at SLIIT, specializing in Information Technology. Skilled in building full-stack solutions using Spring Boot, Thymeleaf, MariaDB, and the MERN stack, with hands-on experience developing management systems and user-focused applications. Proficient in Java, JavaScript, C, and C++, with good problem-solving abilities and a passion for creating efficient, scalable, and user-friendly solutions. Able to work independently or in a team and always eager to learn new skills.

PROFESSIONAL EXPERIENCE

Software Developer Intern

University of Peradeniya – IT Center

February 2025 – August

EDUCATION

B.Sc.(Hons) Degree in information Technology

2022-Present

Specializing in Information Technology

Sri Lanka Institute of Information Technology (SLIIT)

Swarnamali Girls' College, Kandy

2007-2021

PROJECTS

INTERNSHIP PROJECTS

Hostel Management System (HMS)

- **University Hostel Management:** A system designed to manage hostel-related operations for university students, including room and bed assignments.
- **My Contribution:** Developed the Room Allocation Module to assign students to available hostel rooms and beds, integrating with hostel records for accurate and efficient allocation.
- **Technologies Used:** *Spring Boot, Thymeleaf, MariaDB.*

Asset Management System (AMS)

- **University Asset Management:** A system developed to manage university assets and related operations, with multi-role access (Admin, Director, User).
- **My Contribution:** I designed and implemented the Login & Role Management Module with three access levels (Admin, Director, and User). In addition, I built modules for asset registration and management, staff registration and management, and invoice management (including add, update, and view functionalities). I also implemented asset allocation to users and assignment to locations, developed the yearly verification process for assets, and created the asset condemnation/disposal management module to ensure the complete lifecycle management of assets.
- **Technologies Used:** *Spring Boot, Thymeleaf, MariaDB.*

ACADEMIC PROJECTS

GYM management system

- **MERN Stack Development:** Developed a comprehensive fitness management system with CRUD operations, focusing on user engagement and feedback management.
- **Feedback Manager:** Designed and implemented a system for managing ratings, feedback, contact inquiries, and complaints to enhance user experience.
- *Technologies Used: React, MongoDB, Node.js, Express.js*

Online Banking System

- Contributed to the development of an internet banking website using HTML, CSS, JavaScript, PHP, and MySQL, focusing on implementing the money transaction functionality.
- *Technologies Used: Html,css,js,php,SQL*

Mobile game (bridge breaker)

- **Game Design and Development:** Created a mobile game, "Bridge Breaker," using Android Studio, focusing on intuitive gameplay and engaging user experience.
- *Technologies Used: Android Studio, Java.*

Music Instrument Selling Website

SKILLS

- **Web Development:** Spring Boot, Thymeleaf, MERN Stack (MongoDB, Express.js, React, Node.js), HTML, CSS, JavaScript, PHP, Figma
 - **Programming Languages:** Java, JavaScript, C, C++
 - **Databases:** MariaDB, MySQL, MySQL Workbench, MongoDB
-

TOOLS

- | | | |
|------------------|-----------------|-----------|
| • Figma | • Visual studio | • MongoDB |
| • Power BI | • Eclipse IDE | • React |
| • Android Studio | • MySQL | • Node.js |
-

SOFT SKILLS

- | | |
|---|------------------------------------|
| • Teamwork & Collaboration | • Leadership & Initiative |
| • Time Management | • Critical Thinking |
| • Problem-solving & Analytical Thinking | • Self-Motivation & Responsibility |
-
